Profile

I'm Aniket, a final-year Computer Engineering student at Government Engineering College Gandhinagar, I specialize in Full Stack Web Development. With a strong foundation in Front-End technologies like HTML, CSS, SCSS, JavaScript, and React-JS. On the back-end, I leverage PHP and MySQL to build robust applications. Using this, I have created dynamic and responsive user interfaces. Having successfully delivered multiple projects, I am passionate about continuous learning and eager to collaborate on live projects.

Projects

Mess Management System

- This web application is created using MERN Stack.
- We have used ReactJS, MongoDB, ExpressJS, NodeJS and many react framework libraries for data-visualisation and also use Mongo Aggregation pipeline for analysis.

Online Job Portal

- This web application is created using Express frameworks and Pug template engine.
- We have used HTML, CSS, Javascript, NodeJS, MongoDB and ExpressJS.

Modified Tiffin Service

- This is our Final Design Engineering project where we came up with a unique approach to address the issue of tiffin services.
- We have used HTML, CSS, JavaScript, Tailwind, PHP, MySQL database.

Education

Bachelor of Engineering - Computer Engineering

Government Engineering College, Gandhinagar

2020 - Present

8.07 CGPA

Higher Secondary School - 12th Science (PCM)

Ashramshala Bhaktrashram Eng. Med. School

2018 - 2020

76.61%

Secondary School

Ashramshala Bhaktrashram Eng. Med. School

2017 - 2018

78.83%

Technical Skills

Languages: Java, Javascript, Typescript, HTML, CSS, SCSS and PHP.

Frameworks/Libraries : ReactJS, Tailwind, Bootstrap.

Databases : MySQL

Tools & Concepts: Data Analytics, Git & Github, Postman, Figma, Canva and MS Office

Non-Technical Skills

- Teamwork and Collaboration
- Quick Learner
- Honesty
- Decision Making

Awards

- 2nd Runner-up in HACK VGEC

Languages

- English
- Hindi
- Gujarati
